

Whether it be hunting, fishing, hiking, camping, or just everyday tasks, you will find a Buck® product that can be a reliable tool for any task. In addition, Buck® is always creating better designs, finding better materials, and defining the best way to develop their products so you can rely on them over the years.

759BLS3 PAPERSTONE™ METRO™

Designed as an eco-friendly knife, Buck® has definitely gone “green” with this new version of the Metro™. With handles made of 100% post-consumer Paperstone™, this knife is as environmentally-friendly as it is practical. According to research, Paperstone™ is considered the most “green” surface in the market today. The Metro™ is practical in the sense it’s small enough to fit on a key chain while integrating a bottle and soda can opener into a handle.

- Blade 1-1/8” drop point, 420HC steel
- Length/Weight 2-3/8” closed, 1.2 oz.
- Handle 100% post-consumer recycled Paperstone™

PAPERSTONE™

Paperstone™ - Certified: certified by the Forest Stewardship Council or FSC, Smartwood and the Rainforest Alliance. It is the only architectural surface on the market today made from 100% post-consumer waste paper and certified by these demanding third parties. It is the “greenest” architectural surface on the market today.

301GYS STOCKMAN®

Traditional, convenient and multi-purpose. The traditional Stockman® is the largest three-bladed knife available from Buck®. This knife offers a classic charcoal Dymondwood® handle. The clip point blade is good for detail work, the spey blade is perfect for skinning or sweeping knife strokes and the sheepsfoot blade is perfect for giving a clean cut, especially on flat cutting surfaces.

Blade	Clip, spey and sheepsfoot, 420HC steel
Length/Weight	3-7/8" closed, 2.9 oz.
Handle	Charcoal Dymondwood® with nickel silver bolsters
Sheath	Leather with clip

305GYS LANCER™

Traditional, convenient and multi-purpose. Buck's smallest two-bladed pocket knife, the Lancer™ has the clip blade for detail work and the coping blade is designed to be used in tight spots or curved patterns. The charcoal Dymondwood® handle gives it a classic and attractive look.

Blade	Clip and coping, 420HC steel
Length/Weight	2-5/8" closed, .7 oz.
Handle	Charcoal Dymondwood® with nickel silver bolsters
Sheath	Leather

Every American boy dreams of the day when he gets his first pocket knife. For generations, that pocket knife has been from Buck®. These multi-purpose folders are more than just knives, they are companions as you navigate the outdoors and explore life. The pocket knives are as American as Buck®.

VANTAGE™

Smooth, lightweight and one-hand opening. This series of knives offer an ultra smooth, one-hand opening and lock open using a stainless steel liner lock. These knives are built with two stainless steel liners for extra durability and safety. Each knife has an ergonomic grip and the drop point blade offers remarkable cutting ability. With multiple blade steel options and handle materials, the Vantage™ is ideal for an everyday carrying knife.
